

... saving the land for life™

LEGACY SOCIETY

Legacy Society members look beyond the present, providing future resources to protect these magnificent trails, streams, and vistas for all time and all generations.

Making one's mark on the future is a frequent desire, infrequently fulfilled. The Mohonk Preserve Legacy Society is an opportunity to realize that aspiration – to become a part of something that has meaning, changes lives, and endures.

Legacy Society members share our vision for the safekeeping of this land and its enduring lessons in science, nature, history, and the human spirit. They are helping us address one of the planet's greatest issues – how to sustain a healthy interdependence of people and nature. We see our greatest and overarching challenge as balancing long-term protection with land management, visitor use, and other impacts on the ecosystem.

Legacy Society members hold a special place in the ongoing life of the Preserve. They receive invitations to special receptions and events for members only, advance notices about events, and recognition in many forms.

Won't you consider joining the Legacy Society by including the Mohonk Preserve in your will or by naming the Preserve as a beneficiary of a charitable trust, life insurance policy, retirement plan, or other planned gift? We can provide you with more information in a sensitive and confidential manner.

For more information, please contact Meme Hanley, Director of Development, at 845-255-0919 ext. 240 or at mhanley@mohonkpreserve.org.
