

## NatureAccess Trainings Offered:

**Inclusion 101** is typically a 3 hour introductory training covering disability awareness, basic etiquette, communicating with and about people with disabilities, inclusive instructional techniques and planning inclusive experiences. The \$600 fee\* includes our on-site trainer, materials and participant handouts.

### **Creating Access for All: Universally Designed Outdoor Learning**

**Experiences** is a 6 hour training (includes 45 min. break) covering indoor and outdoor learning environments, examples of Universally Designed lesson plans and preparing and leading inclusive learning experiences. The \$1,250 fee\* includes our on-site trainer, materials and participant packets.

**Universal Design in Outdoor STEM Learning Environments** is a 6 hour training (includes 45 min. break) focusing on the application of Universal Design for Learning to outdoor STEM programs including crafting lesson plans to support all STEM learners. The \$1,600 fee\* includes our on-site trainer, take-home materials and participant packets.

**Out of Sync and Sensory Starved** is a 90-min. training which explores the sensory connections to and effects of processing “glitches” including sensory defensiveness and sensory seeking behavior. Program leaders gain concrete strategies and learn what a sensory diet is (*hint: it's not about food!*). The \$300 fee\* includes our on-site trainer and participant handouts and may be offered in combination with other trainings.

**Working with Kids on the Autistic Spectrum** is a 90-min. training focusing on understanding how Autism may affect learning and present in non-formal education settings. Participants gain effective strategies to support student learning. The \$300 fee\* includes our on-site trainer and participant handouts and may be offered in combination with other trainings.

Copies of the book *Making Outdoor Programs Accessible* are available for all participants (\$11.95 ea.) if ordered in advance.
